

**AFFIDAVIT OF DAVID K. MILLS**  
**REGARDING BAT ACTIVITY**

STATE OF CONNECTICUT  
COUNTY OF Hartford

PERSONALLY came and appeared before me, the undersigned Notary, the within named DAVID KENT MILLS, who is a resident of 57 Edgewood Drive, Town of South Windsor, HARTFORD County, State of CONNECTICUT, and makes this his/her statement and Affidavit upon oath and affirmation of belief and personal knowledge that the following matters, facts and things set forth are true and correct to the best of his/her knowledge:

1. That on 9 August 2021, I did pick-up the carcass of a dead bat on Edgewood Drive, in the area adjacent to the Pleasant Valley Estates Open Spaces lot, in the Town of South Windsor, Connecticut.
2. That I preserved said bat and contacted the Connecticut Department of Energy and Environmental Protection (CT-DEEP) Bat Program Office on that same date.
3. That on 10 August 2021, I provided said preserved bat carcass to the resident Bat Biologist for CT-DEEP, Ms. Devaughn Fraser, at which time she identified it as a Big Brown Bat which is listed as a species of Greatest Conservation Need (GCN) by the Connecticut Wildlife Action Plan of 2015.
4. That I have seen many instances of bats being present in the Summer months in and around the area since I moved to my home at 57 Edgewood Drive in 2016.
5. I attest to the accuracy of these statements, support them as my own, and endorse their introduction into the record of the Town of South Windsor, Inland-Wetland Committee and Conservation Commission for all matters pertaining to the area comprised of GIS Pin #'s: 88900005, 88900025, 36900475, & 36900551, constructively known as 25 Talbot Lane.
6. I hereby certify under penalty of perjury that the foregoing is accurate and complete to the best of my knowledge, information, and belief.

DATED this the 8 day of September, 2021.

Dear Mr. Mills,

This email is to confirm that I retrieved a bat carcass from Mr. Mills in July 2020. The animal was a juvenile big brown bat, which is a species of greatest conservation need in the state of Connecticut.

The presence of bats should be taken into consideration during the planning of construction projects as all bat species in the state are either of greatest conservation need, state threatened, or state endangered.

Best,

Devaughn Fraser
