Re: Site Plan Application - Drainage Impact Statement
Wood Memorial Library
Native American Village Exhibition Site
L066 Main Street

Dear Mr. Doolittle,

The Friends of Wood Memorial Library and Museum, Inc. are looking to secure a permanent approval for their Native American Village Exhibit located behind the Wood Memorial Library located at 783 Main Street. The exhibit was constructed with a Temporary and Conditional Permit Approval received in July of 2018. Since then, the exhibit has been in operation and to our knowledge, has not caused any drainage impact to its surrounding area. No changes to / expansion of the exhibit are proposed with this site plan application. With this, it is our opinion that the any impact to offsite drainage conditions, if any, will remain negligible.

Please contact us with any questions.

Sincerely,
Design Professional's Inc.

Daniel H. Jameson, PE
Project Manager
