**Mindfulness Exercises**

Try these exercises to bring yourself into a more mindful state during this stressful time.

<thead>
<tr>
<th>Breathing Exercises</th>
<th>Mindfulness Meditation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Taking deep breaths can increase a sense of calm and contentment. When people experience anxiety, they take quick, shallow breaths. When they are feeling calm, breathing slows, and blood pressure and heart rate drop.</td>
<td>Mindfulness meditation is a method for practicing mindfulness. It is a time to sit quietly, empty the mind, and have a feeling of inner peace. Meditation involves sitting and observing without judgment. This may sound simple but can be challenging in practice.</td>
</tr>
<tr>
<td><strong>Belly Breathing</strong> Try belly breathing when experiencing a stressful situation such as waiting at the doctor’s office. Sit upright with your shoulders relaxed. Take one regular breath and notice where it goes: into the chest or abdomen. Inhale through the nose and imagine the air filling the abdomen; exhale. On subsequent breaths, increase the rise of the belly while inhaling more deeply. Repeat as many times as desired.</td>
<td>Meditation practice involves observing thoughts, feelings, and sensation without focusing on them. In meditation, one learns to let the natural inner activity of the mind and body continue on while watching emotions, thoughts, and sensations come and go. Through regular practice, meditators learn distress tolerance through letting go of the struggle with their internal experiences. Use the following guidelines to get started.</td>
</tr>
<tr>
<td><strong>Focused Breathing</strong> Try focused breathing when there is a need to quiet the mind. The back should be flat on the floor or upright in a chair. Begin with a deep belly breath. Inhale while saying a positive word or phrase such as, “I am happy.” Exhale and imagine breathing out a negative quality, like stress or anxiety. Visualize breathing in a soothing color, or count while breathing in. In on 1, out on 2 up to 10 times, and then repeat the sequence. Do this for at least 5 minutes.</td>
<td>- Sit in a comfortable position.</td>
</tr>
<tr>
<td><strong>Alternate-Nostril Breathing</strong> Try alternate-nostril breathing first thing in the morning or after a workout. Sit comfortably in a chair or on the floor. Bring the right hand up to the nose. Using the thumb, gently hold the right nostril closed, and inhale through the left nostril. Release the thumb, hold the left nostril closed with the ring finger, and then exhale through the right nostril. Now inhale through the right nostril, release the ring finger, close the right nostril with the thumb, and breathe out through the left nostril. Keep your head in neutral position. Start with 5 back-and-forth rounds and work up to 10.</td>
<td>- Close the eyes or focus on a spot.</td>

REMINDER:
Follow these precautions to avoid getting and spreading COVID-19!

- Wash your hands frequently and avoid touching your eyes, nose, and mouth.
- If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Cover all surfaces of your hands and rub them together until they feel dry.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched surfaces and objects (e.g., tables, countertops, light switches, doorknobs, and cabinet handles).
- Wear a mask when out in public. If you do not have a mask, contact the Senior Center.
- Wear gloves if you will be touching surfaces frequently touched by others in public, like gas pumps, door handles, grocery carts, bank teller tubes and ATM machines if you will not be able to immediately sanitize your hands.

Triad for Senior Safety

Along with telephone scams (robocalls or live callers) targeting those with Social Security benefits, criminals are now adding email scams to their arsenal. They pretend there is a problem with your SSA number or account. The email and any attachments appear to come from Social Security or Social Security OIG. The letters may use official letterhead and government “jargon” to convince victims they are legitimate; they may also contain misspellings and grammar mistakes.

Social Security will never:
- threaten you with arrest or other legal action unless you immediately pay a fine or fee
- promise a benefit increase or other assistance in exchange for payment
- require payment by retail gift card, cash, wire transfer, internet currency, or prepaid debit card
- send official letters or reports containing personally identifiable information via email.

Social Security will almost always contact you via regular mail if there is any problem. If you do owe any money the letter will include instructions on resolving the issue. We encourage the public to report Social Security phone and email scams using our dedicated online form, at https://oig.ssa.gov.

Note About Trips

Due to the current circumstances with Covid19 and the unknown, we have had to make the difficult decision to suspend trips for the foreseeable future. With payments due and a minimum required for trips, it does not make sense to plan trips right now until we know more. If you are on a day trip that has been rescheduled, such as the ABBA tribute in August, you will be refunded in full. If you have any questions, please contact Victoria at 860-648-6399. Until then, write down your ideas on where you want to go for when we can safely travel again!
Wellness Wednesdays via Zoom at 3:00 PM

Zoom on in for a teaching moment. We will discuss a different topic each week on “Healthy Aging.” Our first series will be on The Amazing Brain & Healthy Aging. You do not have to join in on all 4 discussions. You can choose one or two or all if you’d like. Each topic is its own class.

6/3: Components of the brain & function in healthy aging
6/10: The 3 phases involved in memory
6/17: 5 key areas for keeping the brain healthy
6/24: Meditation and the aging brain

Presented by Susan Gouin, MS and certified in Health Aging from Allegra Learning, LLC.

Here are some questions that might get you thinking: What would you like to tell your 22-year-old self? What are the best and worst pieces of advice you’ve received? What’s your hidden talent? - If a 3-letter word follows a comma, it is probably the word and or but. A 3-letter word at the beginning of a sentence is often The.
