

**Sandberg vs JMJ Construction****Updates****September 13, 2023****Docket Number:** 980067383-5

Michael Tetraulc – Office Clerk at the Town of Tolland Judicial District stated the following:

- The court only has record of the dates and filings of the Sandberg vs JMJ construction case from 1998 since it was withdrawn in Feb 2003. Per CT Practice Book 7-10, that record gets destroyed within one year of being withdrawn.
- Feb 18, 2004 the case was destroyed due to following protocol of CT Practice Book, 7-10. Mr. Michael Tetraulc reiterated that it was a physical copy of the case as they hadn't moved over to digital copies yet – so that physical copy was destroyed.
- Now, the courts only record is simply the dates and titles of motions that were filed
- Per their policy, they can only read them out loud, or on their screen – they could not provide an itemized list.
- The court provided a Certificate of Judgement for Mr. Sandberg which showed the case existed and was withdrawn in February of 2003.
- No agreement was entered in the case and there would be no subsequent court order in reference in the agreement.
  - He stated that the agreement was most likely between the involved parties and that the court has no record of an agreement.

For the titles and motions filed, there were the following items:

1. Appearance
2. Motion for default failure to plead – which was granted
3. Motion to exempt from docket management program – which was granted
4. Motion for judgement
5. Certificate of closed pleadings
6. Motion to open default – which was granted
7. An objected to motion (did not have the name of motion)
8. An answer
9. A certificate of closed pleadings and trail list
10. Court order
11. Motion for extension of time
12. Disclosure of an expert witness
13. Motion for default
14. Request to amend complaint – there was an objection
15. Reply
16. An offer of judgement on causes of action
17. Notice of intention to argue
18. Objection to motion (did not have the name of the motion)
19. Reply
20. Withdrawn of action through management program
