

**ODOR ISSUES  
SLOWING  
YOU DOWN?**

**Cannabusters  
is odorless and VOC free**

# INDUSTRY LEADING

ODORLESS ELIMINATION TECHNOLOGY

**24 / 7 Odor Monitoring & Reporting**

EXHAUST FANS

ROOF / RIDGE / SIDE VENTS

EXTRACTION / DRYING

OUTDOOR CROPS

# HOW IT WORKS

Cannabusters' patented formulation is atomized into exhaust air streams. All Odor molecules that come into contact with Cannabusters are **eliminated** by oxidation.

Great news, Cannabusters does not add VOCs like other systems such as Vapor Phase, Enzyme or Fragrances based products.

Cannabusters, is also reviewed by a Professional Engineer and Certified Industrial Hygienist as best available control technologies (BACT).

## Cannabusters eliminates Cannabis Odor molecules

Independent verification proves it!

## APPLICATIONS

### Greenhouses

Whether positive or negative pressure, exhaust fans, roof/ridge/side vents or both, Cannabusters' delivery systems eliminate odor on contact.

### Extraction / Drying Facilities

Odor is eliminated at exhaust points.

### Distribution or warehousing

Wherever cannabis odor issues are, Cannabusters eliminates them.

### Outdoor crops

cannabis or hemp outdoor fields

**...and much more!**

## IS CANNABUSTERS SAFE?

### 100% yes!

Multiple health and safety studies from independent sources attest to Cannabusters' safety. All are available on request.

**Safe for people, plants and the planet**

Eliminate odors

Value to Your Business

Easy to Use

100% Safe

**No residual fragrance, not a vapor phase system, no odor!**

## Why use high pressure fog by Fogco to deploy Cannabusters®

- Independently tested and verified.
- Municipality and regulatorily approved technology.
- More cost effective and efficient than other odor control solutions.
- Nontoxic, environmentally friendly and biodegradable with no contamination impact.

## How High Pressure Fog Works to Control Odor

Scientifically developed, patented and independently tested, Cannabusters® is injected into the water supply which is then pressurized to 1,000 psi to create fog. It's delivered via high pressure fog nozzles that are installed wherever odor treatment is needed including on the exterior of your vents or ducts. When the fog containing the Cannabusters® and the airborne odors mix, a series of chemical reactions occur, that completely neutralize the odor escaping the facility.

## Why Fogco for Your Odor Control Solution?

Fogco is the high-pressure fog industry pioneer, having been in business since 1989. Fogco has developed a proven solution to the cannabis industry's biggest challenge, odor control. Fogco's system, when installed as designed, has been independently tested and verified to provide odor mitigation.

Over the years, Fogco has provided complete odor control systems covering millions of square feet of production and storage at facilities worldwide. Fogco was the first to eliminate cannabis odor through the use of fog and has partnered with growers, manufactures, consultants, warehouses, and others within the cannabis industry to provide total odor elimination.

Fogco will customize an odor control solution for your business that will meet regulatory requirements, allowing you to avoid costly delays and potential shut downs. Fogco does it all, from small, private residential facilities to the largest commercial grow facilities and warehouses, and everything in between. Trust the industry leader to solve your odor concerns so you can focus on your business.

**Partner with Fogco to completely eliminate your cannabis odor issues.**

## Odor Mitigation Technology

# Tested. Trusted. Deployed in millions of sq ft

For odor control, Fogco offers a broad range of 1000-psi high pressure misting systems. From our economical direct drive pump to our fully customized units, all of our mist pumps are built with high-quality components and have a proven track record of over 30 years.

This range of pumps can also be equipped with an optional high-pressure safety switch, a variable frequency drive, PLC controls, and can be integrated into the automation of any building maintenance system. These upgrades make the Fogco range of pumps the most protected and highest rated pumps on the market. **Fogco backs that up with our industry-leading 5-year warranty!**

The Fogco system can utilize stainless steel, copper or nylon tubing. The most versatile and convenient of these options is our high pressure flexible nylon and proprietary slip lok fittings. This option allows for on-site assembly and the ability to remove and reassemble individual fittings at any time without the need for special tools. The nozzle fittings can also be rotated on the nylon tubing allowing for changing the direction of the mist from each individual fitting. These are the highest quality slip lok fittings on the market.

Over the last 30 years, Fogco has developed an extensive range of tubing and fittings exclusively for mist system and fog system applications. The options include robotically welded stainless steel in 10 foot or 20-foot lengths, pre-soldered copper in 10' lengths, or flexible nylon (up to 500' lengths) and slip lok fittings. By adding an injector and introducing a proven odor solution, a highly effective equipment package is available for Fogco to help with your odor concerns.

 Comments:  
 FOR: Tuesday, August 16, 2022 Planning & Zoning Commission meeting

GOOD EVENING, COMMITTEE MEMBERS. MY NAME IS AARON CARBONE. AS I'VE STATED IN THE PAST, MY FAMILY AND I HAVE BEEN SOUTH WINDSOR RESIDENTS FOR OVER 35 YEARS. OUR CHILDREN WENT THROUGH OUR TOWN'S SCHOOL SYSTEM. OUR SCHOOLS HAD THE "DARE" PROGRAM, WHICH TAUGHT KIDS TO "JUST SAY NO TO DRUGS". NOW YOU NEED TO "JUST SAY NO"!

WHILE COACHING YOUTH SPORTS IN SOUTH WINDSOR FOR SOME 30 YEARS, I ALWAYS TOLD THE KIDS: "DON'T DO DRUGS". ARE WE NOW SENDING A MESSAGE THAT USING DRUGS IS OKAY? MARIJUANA IS A GATEWAY DRUG THAT LEADS TO OTHER DRUGS. WE'RE IN THE MIDST OF AN OPIOIDS CRISIS. IT'S DANGEROUS, AND WE CAN'T EVEN ADEQUATELY POLICE IT. DO WE REALLY NEED MORE HIGH DRIVERS ON OUR STREETS? DO WE REALLY NEED THE STENCH THAT GROWING MARIJUANA EMITS?

I KNOW THAT SOME COMMITTEE MEMBERS THINK IT'S NECESSARY TO FOLLOW WHAT TOWNS, SUCH AS MANCHESTER, ARE DOING. YOU NEED TO BE LEADERS, NOT FOLLOWERS. IF MANCHESTER'S POLITICIANS WERE TO JUMP OFF A BRIDGE, WOULD YOU FOLLOW THEM? IF PROSTITUTION WERE LEGALIZED IN CONNECTICUT, WOULD YOU ALLOW A WHOREHOUSE IN SOUTH WINDSOR?

FOR THE RECORD, BY A SHOW OF HANDS, DOES ANYONE ON THE COMMISSION KNOW OF SOMEONE WHO HAS BEEN AFFECTED BY DRUG USE?

ALSO, FOR THE RECORD, BY THE SHOW OF HANDS, WHO ON THE COMMISSION HAS EVER USED MARIJUANA?

THE CONNECTICUT LAW LEGALIZING RECREATIONAL MARIJUANA NEEDS TO BE REPEALED. THE USE, SALE, OR DISTRIBUTION OF MARIJUANA IS AGAINST FEDERAL LAW. ARE YOU WILLING TO RISK THE POTENTIAL LOSS OF FEDERAL FUNDS FOR OUR SCHOOLS BY ALLOWING RECREATIONAL MARIJUANA IN OUR TOWN?

IN CLOSING, IT WOULD BE A DISGRACE FOR YOU TO CONDONE RECREATIONAL MARIJUANA IN SOUTH WINDSOR.
