MICHAEL MANISCALCO, MPA  
Town Manager

Good evening,

The Town Staff have been in regular meetings and planning efforts to prepare for the possibility of identification of COVID-19 in our community. As of today, the Town, in coordination with the State Department of Public Health, is monitoring one person who has potentially been exposed to COVID-19. In an effort to keep possible transmission down we are recommending the following:

- Wash your hands with warm soap and water often;
- Sanitize commonly touched surfaces;
- Avoid group meetings and events where large amounts of people will be present.

As we progress through these challenges as a community, I think it is important to remember what we know at this point:

- 80% of all people infected by COVID-19 get better on their own;
- Residents over the age of 60 and/or medically impaired are most at risk;
- COVID-19 is passed by droplets through close contact.

Lastly, I would like to take a moment to reassure you that the Town, State and Federal Government have all been in regular communication over the last few weeks and South Windsor is prepared to deal with whatever may transpire. We live in an amazing community staffed by professionals who institute best practices. While the coming weeks may be stressful, I am confident that through working together we will be just fine. Best regards,

Michael Maniscalco
