

Information Session

You are invited to learn more about the
Barbour Hill Substation Mitigation Project

Information Session about Barbour Hill Substation

Eversource Energy
P.O. Box 270
Hartford, CT 06141-0270

Eversource and the Town of South Windsor invite you to a follow-up briefing as we continue our partnership on the Barbour Hill Substation Mitigation Project. At the September 11 meeting, Eversource will provide an update on the overall project, present the mitigation design as approved by the Connecticut Siting Council and review the anticipated schedule for construction.

Please join us at this meeting where members of the Eversource project team will continue to provide information and answer questions about our work in your community.

Monday, September 11, 2017

Time: 7 p.m.

South Windsor Town Hall

Town Council Chambers

1540 Sullivan Avenue

South Windsor, CT 06074

To find out more, or to speak with a project representative,
