# PRESS RELEASE

## Beelzebub Road Reconstruction Project

In preparation for the reconstruction of Beelzebub Road, Eversource Gas and their contractor NPL will be installing a new gas main on this road starting on May 23, 2022. This work is expected to take several months to complete.

This work is in preparation for the reconstruction of Beelzebub Road including new stormwater drainage and full depth reconstruction of the roadway with new stone base, pavement, curbs and possibly concrete sidewalks along one side the road, that is planned to start this summer.

One lane of Beelzebub Road will be closed to traffic for this work because the contractor will be using heavy equipment to install the new gas main. There may be times when a detour around the work area is needed. Local residents will be able to access their properties and vital services will be allowed to use the road, but there will be delays. Motorists are advised to seek alternate routes around Beelzebub Road during this work.

If you have any questions regarding this project, feel free to call the Engineering Department at 860-644-2511 ext. 2344.

Sincerely,

Jeffrey Doolittle, PE. Town Engineer/Assistant Director of Public Works

Cc: Vincent Stetson, Director of Public Works
