A. Discussion Item: Board of Education Budget for Fiscal Year 2020/2021

Chairman Craig Zimmerman, Board of Education, came before the Council and thanked the Town Council, Town Manager Maniscalco, Board of Education, and Dr. Carter and her staff for the leadership that has been shown during the Coronavirus pandemic. Chairman Zimmerman also thanked everyone, including Daria Plummer, the Support Schools Pack, and the South Windsor voters for the very successful school referendum that was passed on March 10, 2020. Chairman Zimmerman then announced that the Board of Education has decided to cancel their next meeting on Tuesday, March 24, 2020.

Dr. Carter explained that she would not be presenting the Board of Education budget tonight in light of the current situation that is happening. The budget document can be found on the Board of Education’s website. The public can view the January 28, 2020, Power Point presentation regarding the budget.

(Discussion Continued on Next Page)
ITEM:

13. A. *(Continued)*

The only changes that have occurred since the presentation of the budget in January are as follows:

- South Windsor is the fastest growing district in the State of Connecticut.
- South Windsor has the highest percentage of English learner students in its District Reference Group (DRG).

Dr. Carter continued by explaining that the school closures could impact next year’s budget. The situation is fluid, and information changes daily. There may be many questions, but at this time, Dr. Carter stated that she is committed to remaining thoughtful about public statements. It would not be in the community’s best interest to speculate with off the cuff remarks tonight. Dr. Carter said she would continue to communicate with parents through letters or phone calls when appropriate. Parent letters are posted on the Public Schools website. The actions that have been taken to date are as follows:

- Deployed Chromebooks to interested parents of elementary school children on Saturday.
- Students in Grades 6 through 12 already had Chromebooks issued to them.
- Developed a plan which starts March 17, 2020, for families to have access to breakfast and lunch meals at the high school.
- Continue to communicate with staff regarding expectations for working remotely and elate fears of staff regarding the disruption to payroll when schools are closed.
- Have done a thorough analysis of the continuity of operations for the district, deliveries, accounting, technology support, etc.
- Responded to rapidly changing guidance from the State and pivoted to distance learning. There were multiple meetings with the teachers union to coordinate efforts. Parents will receive further communications on this matter.

STATEWIDE- As of March 10, 2020 Governor Lamont has issued a Public Health Emergency and a Declaration of Emergency for the entire state. Since then, through executive order, he has limited public meetings to no more than 50 people for the next 8 weeks per CDC, closed restaurants and bars to dine in services, closed all schools till March 31. The State has identified and made available 5 drive through testing locations but you will need a doctor's not before you will be directed to get a test.

LOCAL- On March 13, 2020 after having a visitor come in the Town hall and tell staff that they have been caring for a family member on self-quarantine I issued a Declaration of Emergency and Public Health Emergency. The Emergency Operations Center is open in a monitor status. All Town Departments have reviewed and are ready to implement their Continuity of Operation Plans (COOPS) to ensure that we can still deliver services to the residents within the community. All personal protective equipment has been reviewed and inventoried. Housing measures are in place in the event that staff are not allowed to leave work. All department heads are prepared to work from home if needed.

All out of state Staff travel has been canceled. All on site meetings with more than 20 attendees have been canceled. All other meetings with less than 20 attendees that may occur with outside attendees are being reviewed by the Town Manager and Assistant
Town Managers before they are approved. All staff attempting to return to work after a vacation must receive approval from the Assistant Town Manager/ HR Director and Town Manager based on where they went and the activities they participated in. To date, 5 employees have been asked to self-quarantine.

Staff have reached out to our low income senior population to determine their status related to food and other basic supplies. We are currently working on organizing a food drive to restock the food pantry for next week sometime and a blood drive is being planned by the Red Cross for March 18. Staff have modified the way they will interact with the public moving forward. Every public interaction will start with questions asking them if they have symptoms or have been around anyone with symptoms.

The Current Status of each department is as follows:
- Town Hall- Closed to Public still operational for virtual business and by appointment
- Community Center- Closed to the public

Public meetings that do serve an immediate purpose will be closed to the public, broadcast via TV and internet. Participants will need to have their temperature taken when they arrive and public comment can be made through an email.

Public Input for March 16, 2020 South Windsor Town Council Meeting.

“Pedestrian deaths continue to rise in Connecticut while more people are walking or riding bicycles. Walking and bicycling need to be made safer.

Please consider the following when doing road re-construction projects with accommodations for pedestrians:

Up to 10 times as many people would ride a bicycle to work or on shopping errands if off road multi-use trails or side paths were available. Four or Five foot Sidewalks are not sufficient for both pedestrians and bicyclists and even cost more than 8’ bituminous side paths.

I realize that on road rebuilding projects there is often a limited width of Right of Way for both road and pedestrian/bicycling infrastructure.

I would like to suggest that on connector roads consideration be given to installing an 8’ or 6’ bituminous concrete multi-use side path in place of 5’ or 4’ concrete sidewalk. Additional width might be gained by having little or no shoulder (as defined by white stripe next to curbs) and considering the width of the snow shelf to be from a line 4’ from the far edge of the path. (It would only be necessary to clear 4’ of snow in winter but having 8’ would permit use of truck mounted snow plow)

If we have side paths on some of our connector roads it will give us leverage when the state is rebuilding state routes to ask them to incorporate multi-use side paths. Safer infrastructure will greatly increase bicycling and walking in South Windsor and is desired by younger generation of residents for commuting and recreation.”

Sincerely,

Robert Dickinson
