A. POLICY STATEMENT

The Town of South Windsor under Title VI of the Civil Rights Act of 1964 and related statutes, ensures that no person shall on the grounds of race, color, national origin, sex, disability, and age, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity it administers.

B. MISSION

To build awareness of the need and methods to ensure that LEP persons have meaningful access to important federally assisted programs and to ensure implementation of language access, requirements under Title VI, the Title VI regulations, and Executive Order 13166 in a consistent and effective manner across agencies.

C. WHO IS LIMITED ENGLISH PROFICIENT?

LEP individuals, who do not speak English as their primary language and have a limited ability to read, write, speak, or understand English, as a result of national origin. These individuals may be entitled to language assistance with respect to a particular type of service, benefit, or encounter.

D. COMPLIANCE WITH LEP REQUIREMENTS

As a recipient of federal funding, the Town of South Windsor must take reasonable steps to ensure meaningful access to the information and services it provides. In determining “reasonable steps” there are four factors to be considered:

- Demographics
- Frequency of LEP Contact
- Nature and Importance of Services Provided
- Resources

The decision to provide language assistance services should include an assessment of the number or proportion of LEP persons from a particular language group served or encountered in the surrounding community area. The greater the number or proportion of LEP persons served or encountered, the more likely language services are needed. Generally, identifying any community where the LEP population equals 5 percent or more in a given language automatically triggers providing language assistance services as a mandatory and normal part of the program operation.

The Town of South Windsor has not completed a comprehensive LEP demographic analysis. However, English is the predominant language in Connecticut with Spanish being the second most frequently spoken language. The Town makes efforts to notify the English and non-English speaking public about transportation and other services and programs.
E. LANGUAGE ASSISTANCE MEASURES

There are several language assistance measures available to LEP persons, including both oral and written language services. There are also various ways in which Town staff may respond to LEP persons, whether in person, by telephone, or in writing.

- Information about our transportation services is posted in Spanish in public buildings like the library, community center, and the senior center.

Updates will include the following.

• How the needs of the LEP persons have been addressed.
