I am writing in support of the Wapping Mews project. My daughter is a disabled resident and it is clear that these units, which are vital to the community, are very old and outdated in many aspects. They need these upgrades to accommodate the residents, present and future, especially the disabled population who often require unique and special accommodations.

At the same time I, among others, and perhaps many of the residents, would like to see the final plans for the upgrades and have any questions or concerns addressed. That could be done via teleconference or a virtual meeting. Thank you.

Respectfully,

Jim Clyburn
