

## **TOWN MANAGER'S REPORT**

**To:** Members of the South Windsor Town Council

**From:** Michael Maniscalco, Town Manager

**Subject:** Town Manager's Report for 2/16/21 Town Council Meeting

**Date:** February 11, 2021

### **COVID-19 Update**

I will provide current numbers for the Council at the time of the meeting. The Town continues to hold vaccine clinics weekly for those eligible to get their vaccine. The eligibility has recently opened for those aged 65+.

Due to the heightened infectiousness of new strains, the CDC has released new guidance recommending that people wear two masks. The Town is currently waiting to see what the State Department of Public Health recommends. If their recommendation does change, we are expecting the use of disposable masks to increase significantly. Current supplies of masks are adequate, but we will need to start sourcing additional resources if this new recommendation takes effect.

### **Budget**

Town Staff have turned in their budgets for myself and the Assistant Town Managers to review. We have been meeting with staff to ensure accuracy, and to make sure that the budget will be effective for residents.
